

Typical Medical Facility

We understand the kind of risks that can occur on your site. By implementing a predictive maintenance and agile cleaning methodology we can ensure the site meets compliance standards and corporate objectives.

1 Entrance, reception, common areas and waiting rooms

Agile and responsive cleaning at all times:

Welcoming and reflecting your values. Always clean-safe. Free of dust or litter at any time. Daily cleaning. Weekly thorough clean of entry glass door and disinfect telephones.

6 Toilets and Change Rooms

Predictive Maintenance.

Always hygienically clean. Toilets are a hot spot for bacteria and germs. Patients, visitors and staff must feel safe and well cared for. Daily clean and sanitise including replenish consumables. Extra hour on weekends.

2 Meeting rooms, consult rooms and counselling rooms

Predictive maintenance with provision for agile cleaning.

Warm, friendly, and assuring space to be maintained. Consistently clean and tidy. Furniture wiped down and in place. Week day cleans. Spot clean of hot spots such as light switches, door handles and finger prints on walls to be done as required.

7 Kitchens, Nurses Room and Staff Room

Predictive Maintenance.

Remain at a clean, safe level, free of litter and spills, taking into consideration peak times as well as general usage. Consistent cleaning and tidying including dishwasher, microwave cleaning, recycle rubbish, general waste and relining of bins.

3 Nurses consult and assessment rooms

Consistently clean.

Always hygienically clean, light switches, door handles, wall marks to be spot cleaned as needed. Daily clean.

8 Utility and Store Rooms

As per programmed specifications.

Daily clean of floors, carpets, weekly dust and wipe.

4 Recovery Bays

Programmed clean.

Always hygienically clean, light switches, door handles, wall marks to be spot cleaned as needed. Daily clean.

9 Lifts, Stairs and Corridors

Consistently clean, assuring good hygiene practices to patients, visitors and staff.

Spot clean entry glass panels and doors daily. Free of finger marks.

5 Radiology

Always hygienically clean.

Light switches, door handles, wall marks to be spot cleaned as needed. Daily clean. Consistent refills of hand towels and soap. Appropriate product use.

10 Windows

6 monthly external and internal clean.
