DOES YOUR CARPET NEED THE NEXT LEVEL OF CLEAN?

It can be easy to forget that whatever filth and bacteria lurk outdoors can be easily transferred onto your carpets on the soles of shoes. And the dirtier your carpets get, the easier it is for germs to stay around longer.

AMC Carpet shampooing gets deep into the carpet fibres by combining rotary brushes and our specialist, eco-friendly detergents. The gentle agitation of the carpet fibres is highly effective at removing a wide range of ingrained dirt, stubborn stains, mould, odours, pests, and harmful bacteria brought in from outside.

Protect the people you look after

Whether it's staff, customers, clients or the people you care for, clean carpets are essential. Carpet care reduces the spread of disease and will also reduce absenteeism with your team members to keep your business running like clockwork.

It's good for your carpet

Carpets aren't cheap, so it pays to slow the progress of wear and tear. Regular deep cleaning of your carpets will help improve the lifespan of your carpets, while helping them look and smell fresh.

Instill a sense of pride

Well-maintained carpets tell people that you have pride in your organisation and care about the details. A clean carpet is the foundation for a feeling of cleanliness throughout your organisation and can make a good impression on new customers and team members.
